The OrthoNu® Collection

Tweakz® for Braces

This 4-in-1 tool accommodates the needs of braces wearers, helping manage emergencies like sharp wires and dislodged brackets with ease, and assisting with removing and replacing rubber bands.

Tweakz® for Aligners

Tailored for aligner users, this 4-in-1 tool can remove retentive aligners from the posterior palatal seal, assist with removing and replacing rubber bands, and smooth out any rough spots on composite attachments or aligners.

Chillin' Strips™ *Replaces Silicone Wax*

Experience the first-of-its-kind relief, with therapeutic, moldable, and dissolvable strips that soothe the oral cavity. For use on soft and hard palate, irritated gums, and sensitive teeth. Chillin' Strips™ can be used for post-periodontal care, post-oral surgery care, or for wound care in the oral cavity. Dissolves comfortably in the mouth for two hours or more. **Activate the strip with your saliva!**

OrthoChewz™ *Replaces Silicone Chewies*

OrthoChewz™ delivers therapeutic and beneficial ingredients to maintain oral health with a refreshing icy mint flavor that lasts as the Chewz dissolves. OrthoChewz™ can be used to seat aligner trays, or for relief for braces or post-dental procedures. Chill and chew any time!

Comfort Tape™ *Tape For Gums And Teeth*

Provide instant calming for your teeth and gums against the discomfort of braces and aligners, or for post-dental or periodontal procedure care, with a natural formulation that works for up to two hours. **Dry area before application!**

Mouth-aid™ *Aid For Sores And Ulcers In Mouth*

Combat mouth sores and discomfort with a unique formulation that offers protective and soothing relief for the sores and ulcers in your mouth, effective for two hours or more. **Dry area before application!**
